## **Tiffany Dover, the nurse who fell to the floor immediately after being vaxxed on live TV ...has DIED!**

12/24/2020

[8 Comments](#)

A controversy began in the days following her adverse reaction because she apparently went missing. Abrupt stop to all social media postings that she was making, not seen at work, people she knew unable to reach her. Corrupt 'fact' checkers have been actively spinning the story all week to put distance between her fainting event and the covid vaccine. Many unnamed 'doctors' are being quoted to say her episode of fainting was not vaccine related.

CHI Memorial Hospital, where she worked released a 20-second video clip on social media — showing several staff members, (including Dover?), standing together **holding signs to support the coronavirus vaccine rollout and posing a similar looking woman in the foreground with a first name only name-tag that just said 'Tiffany'**.

They also made a statement attempting to quash concerns raised over her sudden disappearance. A caption accompanying the clip read: “Nurse leadership supports Tiffany,” **with the date printed at the bottom 12-21-20.** *“We’re pleased to share Tiffany Dover is doing well. Here’s a short video of her today surrounded by her colleagues who all support her.”*

[https://usdailyreport.com/2020/12/22/tiffany-dover-alive-hospital-releases-new-video-of-missing-nurse-who-fainted-after-taking-covid-19-vaccine-to-counter-death-hoax-and-creates-more-confusion\\_n\\_13324.html](https://usdailyreport.com/2020/12/22/tiffany-dover-alive-hospital-releases-new-video-of-missing-nurse-who-fainted-after-taking-covid-19-vaccine-to-counter-death-hoax-and-creates-more-confusion_n_13324.html)

**CHI IS SHAMELESSLY LYING**, and buying time with suspiciously misleading media, making it appear she was in the promotional clip with the rest of CHI nursing staff, **THE DAY AFTER HER DEATH?** and relaying comments via Twitter that Tiffany possibly made on the 19th. They wrote: “UPDATE: Nurse Tiffany Dover appreciates the concern shown for her. She is home and doing well. She asks for privacy for her and her family.”

**Doubling down on with more 'damage control' the hospital also said:** “We are aware of the multitude of false information circulating on social media about Tiffany Dover. We created the video because our nursing leadership wants the public to know of their support of Tiffany and to clear up many of the circulating rumors.” **Of course, without a word as to what those rumors might have been!**

**Below is a screenshot of a public death records database, [SearchQuery.com]**

**that records her death,**

**at 30 years of age, in Higdon Alabama.**

**(just 15 minutes drive from CHI Memorial Hospital)**

Its not a similar name, IT IS HER, biographical data and next of kin data line up on the public record. A public obituary was also published in Tennessee, but totally devoid of details, vaccination was not mentioned nor was any cause of death or funeral specifics.

## **Tiffany Dover - Cause of Death... *Passed Away!***

**Total media blackout on this information,  
all social platforms deleting any mention of it!  
That censorship is ongoing.**

Tiffany Lashae Pontes Dover is a white woman from Alabama, United States. She is a registered nurse.

Dover is a mother of two. Here are 13 more things about her:

1. She was born on November 23, 1990.
2. She is related to Michael Anthony Pontes and Gary L. Pontes.
3. She has lived in different parts of Alabama including Higdon, Rainville and Henagar. She has also lived in Chattanooga, Tennessee.

Thank you Lord for giving some justice!!!!!! As a living-breathing being I am damaged by the people who work in the medical sector. Those claiming to have standing on health issues lied about safety of vaccines and gave me a chronic disease but also in mental by claiming that my vessel of which my vagina is a part of, that I have to be mentally wrong by claiming that my vessel as my vagina is mine. The label they gave was MBD (minimal brain damage). When I was nine. At the age of 15 after two school boys who were insulted that I refused to lend my vessel for sexual harassment, they beat and kicked at my womb. The school had the opinion that I needed reprogramming by the school psych. I checked that also with school psych and she confirmed. I can tell you that the school psych let that position within 2 months with a burnout. So I hope you comprehend that reprogramming didn't succeed. People who contract with this kind of wrongdoings for their job I

really do not mind this result. And as this nurse was willing to tell later the bogus story that when she passed out after the vaccine that it was not related. I hope that more follow her good example.

Tim, not sure if your only typo was in the comment above or the search bar when you tried to confirm this but there is a typo above, the address you want is SearchQuery.com There is a LOT of censorship around this story, you won't find anything online that will definitely confirm her death, which is why I went into public records databases to see if it was in fact there and it was. There are several Tiffany Dovers listed but only one matches with all her biographical information, her next of kin etc... It is her. I have even seen phony debunker trolls pointing out the address in the public record is AL not TN, which is true, however if you look on a Map its not strange at all, she lives 15 minutes drive across the state line from Chattanooga where she worked as a nurse at CHI Memorial. I have heard unconfirmable scuttlebutt that her family has been threatened not to publicly confirm this. It is what it is, but personally I have seen a lot of this sort of intimidation used. I believe I have confirmed it as well as anyone can at this point, short of driving to her home and knocking on the front door. She has not returned to work since the vaccination, as of today.

Shame on the imposter girl pretending to be Tiffany and shame on the hospital too. How selfish to cover up her death and act like the vaccine isn't poisonous. By not being honest and withholding this from the public, many misinformed people will follow in this nurse's footsteps and get the vaccine and die. That fake girl pretending to be Tiffany HAS BLOOD ON HER HANDS...AS WELL AS THE HOSPITAL!!! HOW ASHAMED YOU SHOULD BE! I'd be on my knees begging for forgiveness for this one....who cares who's threatening you! Stand up and do what's right!

I just checked, the entire site is in fact parked behind their domain host now. Here's what you d. Somebody go look it up on another database. Its not like there aren't dozens to choose from. Personally, I did this once, paid the 20 bucks or whatever to confirm it once. Don't be lazy. Take over the hunt for me and if you find it comment here. I will make a post about that. but email me your screenshots. I have to see what your found or its hearsay. I am writing books, reading a library of info daily, this hunt is in my rear view window now. But an update is valuable

They used a girl named Amber Lynn... if you look at the side by side profile pics, you can see the many differences... color of hair tint....how Tiffany parted her hair...in Tiffanys part there are really light hairs, the eye colors are not an exact match .....Amber Lynn has wrinkles around her eyes....Tiffany did not...Tiffany wore the necklace lower and to the left... Amber Lynn is heavier...etc...etc
